This document is part of a suite of Corelink materials supporting the TAA04 Training and Assessment Training Package.

New TAA40104 Cert IV in Training and Assessment

The TAA40104 Cert IV in Training and Assessment is the new qualification that replaces the old BSZ40198 Cert IV in Assessment and Workplace Training.

This document maps units from the old BSZ98 training package to the new Cert IV in Training and Assessment qualification to help clients assess their eligibility for Recognition of Prior Learning (RPL).

Currency

To receive RPL for BSZ98 units TAA40104 candidates need to demonstrate **current** knowledge and skills relevant to the vocational education and training sector. Currency is one of the rules of evidence that applies to all TAA candidates. Guidelines on how to demonstrate currency are explained in the Corelink RPL kit provided to all RPL applicants.

Mapping BSZ98 to TAA40104

The following diagrams map BSZ98 units against TAA40104 units to illustrate:

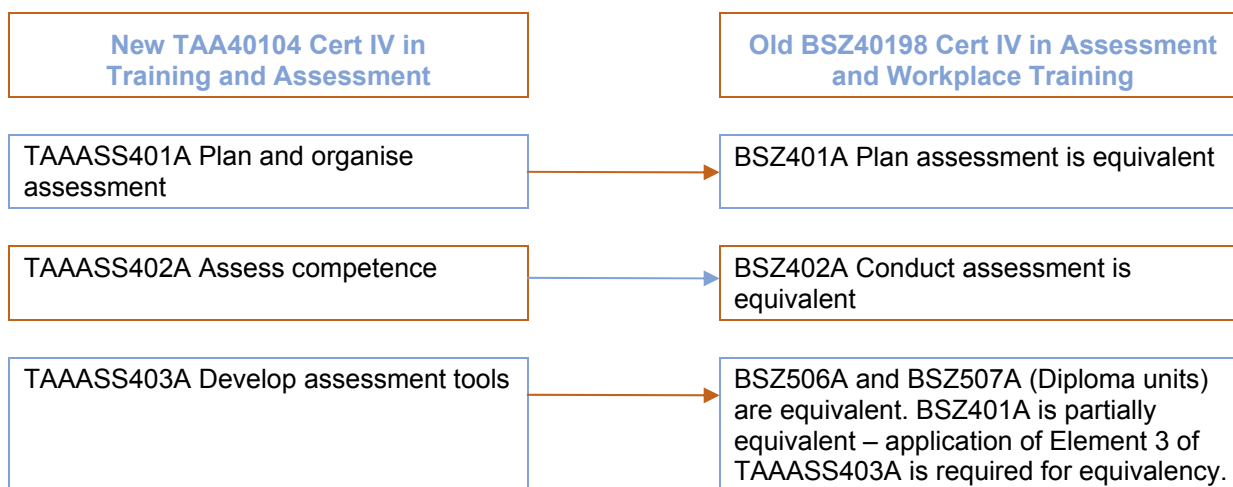

- TAA04 units that have equivalent BSZ98 units,
- TAA04 units with partially equivalent BSZ98 units, and
- TAA04 units that have no equivalent BSZ98 units.

Equivalence means a BSZ unit (or combination of units) and a TAA unit have the same outcome. Any gaps are so insignificant that competency is not compromised.

Partial equivalence means a BSZ unit (or combination of units) and a TAA unit have some similarities, but there are significant gaps that need to be addressed.

No equivalence indicates there is no BSZ unit similar to the TAA unit, or that similarity is so limited that no elements of the TAA unit are addressed.
